Imported Packaging Solutions

Innovative Packaging and Mailing Solutions for Retail

If you are interested in developing your retail range please call us on 01923 639800

Who We Are

With offices and warehouses based in Hertfordshire, Imported Packaging Solutions designs, develops and imports packaging, mailing and other stationery products for the retail sector. We specialise in mailing boxes, mailing bags, bubble wrap, brown paper and envelopes and are experienced in developing own-brand solutions in a required or specified retail format.

We have developed and are now distributing one of the largest and the fastest growing mailing solutions ranges for retail in the UK and have recently received accreditation from Royal Mail.

Who We Sell To

Our customers to date have included independent retailers, multiple retailers, the main buying groups and other wholesalers and distributors. We have successfully designed and continue to sell both our own range of products and full ranges of bespoke product into a variety of types of customer.

Due to the phenomenal success of our mailing solutions range, we are proud to have designed and now exclusively supply a unique range of branded packaging, mailing and stationery products for all member Post Offices of the National Federation of Sub Postmasters (NFSP) throughout the UK (Please see page 14).

What We Can Do For You

If you would like to sell any of our current stock ranges, please contact us now.

If you would like something different to our stock lines, a bespoke solution, and already have a product/design, please let us know and we can look to supply you according to your specifications. Even if you don't have a product/design but have an idea of what you would like, we will be happy to come up with a solution for you.

Over the next few pages, you will see a description of our current stock lines. If you would like a bespoke/own brand solution of any of our stock lines, please get in touch.

Presenting 'Parcel' Mailing Solutions

IPS has designed, developed and is now distributing one of the largest and the fastest growing consistently branded range of mailing products for retail in the UK. The brand is known as the "Parcel Mailing Solution" and covers all mailing products from boxes, bags and envelopes to bubble wrap and brown paper.

Our Bespoke Process

In designing any product, we first look at the market in which the product is going to be used/sold and discuss any issues or problems that the customer may have previously encountered when using or selling the product. We assess what the customer wants to achieve with the product (quality, pricing, retail display) and we then proceed to develop a solution ensuring that it addresses the findings. With the mailing solutions, we did not just produce a box or a bag... we addressed the common problems facing our customers and tailored our solutions accordingly. The result was a unique mailing solution which has:

- a detailed Posting Pricing Guide telling end customers exactly how Pricing in Proportion and the new Royal Mail guidelines work for that specific product (fig. 1)
- a product and size guide to help the customer decide which Solution to buy depending on what he or she wants to mail
- a large area for Postage Labels designed to allow the full size labels produced by Post Offices to be adhered to the Mailing product in a tidy way (fig. 2)
- easy-to-assemble instructions clearly printed on the boxes been produced using bright eye-catching colours to improve the display of the retailer

Our mailing solutions ranges are continually redesigned and updated to ensure they are in line with current Royal Mail specifications and guidelines (fig. 3)

ParcelBox is fast becoming the leading mailing box in the UK for use through the UK Postal System. After months of research, IPS developed ParcelBox with the aim of providing a cost effective mailing solution which was eye-catching to the customer and easy to construct. With a colourful design and clear instructions and diagrams, the feedback has spoken for itself. As a result of our success, a number of our boxes have received Royal Mail accreditation.

All our boxes are Strong, Lightweight and Easy To Make Up. The "Every Day" range is all made from recycled paper and currently comes in 7 different sizes of mailing boxes making it one of the most comprehensive available on the market.

Our Standard Boxes are flat-packed and they require a customer to put them together before use. Our Pop Up Boxes are flat-packed but have a pop-together mechanism when opened and pushed making the construction of the box very easy for the customer.

Our Large ParcelBox has been designed to maximise "Small Parcel" Posting.

Plastic mailing bags are very popular for sending items such as clothing or books. Parcelbags are specified to 70 microns thick and are lightweight, puncture, tear and water resistant. Each bag has a peel seal strip using the latest gluing technology thus providing added strength and security. The ParcelBag stock range currently comes in 7 different sizes (again one of the most comprehensive ranges available) to ensure that your customers will find the right size of bag.

The range contains two sizes which have been designed to maximise "Small Parcel" posting (Size 3) and "Medium Parcel" posting (Size 5) respectively.

Plastic Bubble-Lined Mailing Bags

ParcelBag
Premium

Putting a bubble lining inside the plastic mailing bag gives the customer the almost perfect mailing solution. The mailing bag has all the qualities of the ParcelBag and a high quality bubble-lining to give that added protection to your goods.

The ParcelBag Premium stock range currently comes in 7 different sizes which have been referenced in line with the standard bubble-lined mailing bag sizes from other well known manufacturers so that customers can relate to the size of bag that they require more easily. We have also developed two new sizes to maximise "Small Parcel" posting (Size SP) and "Medium Parcel" posting (Size MP) respectively.

Envelopes

Our current stock range offers a variety of different types of envelopes in all the popular sizes, in different grammages of paper and all with a Peel Seal strip. We designed two ranges due to the fact that dependent on the location and the profile of a particular retailer's customer, they may prefer to have the emphasis on price, whilst others may prefer the emphasis to be on quality. The range therefore includes an everyday standard range and a premium paper range in both white and brown paper. All premium range envelopes come in CDUs enhancing retail presentation and giving as much information as possible to the customer. The envelope pack inserts have been designed to provide clear and concise information as to what a customer is buying.

For our bespoke customers, we can supply envelopes:

- in a Budget/Economy range using paper starting from 70gsm through to a High Quality range using paper as high as 120gsm depending on a required price point
- in different sized retail packs designed with either Gum, Self or Peel Seal closures
- with a specific number of retail packs per outer or with a CDU

We also offer loose packs of envelopes for single unit sale.

Bespoke Products

We already offer bespoke solutions for a variety of customers. Following are two very different case examples of bespoke solutions that we have provided.

If you would like a bespoke or own-branded packaging or mailing solution, contact us now. Importantly, if you don't see what you require, as we work closely and extensively with a number of other leading companies within this sector, we can still look to develop a solution for you using our network of expertise so that you still only have one point of contact and relationship.

IPS' environmental policy is to minimise the effect of our operations on the environment by actively promoting the usage of recycled and non dangerous or harmful materials.

Bespoke Client B & M

IPS is working with and has developed packaging and mailing ranges for B&M Retail. B&M is one of UK's fastest growing variety retailers with a chain of 370 stores operating in the United Kingdom since 1976 and now serving over 2 million shoppers a week.

Bespoke Client

The National Federation of SubPostmasters

After listening to the concerns of postmasters, IPS designed, developed and launched a full and exclusive range of mailing solution product for the sub post office network. The products allowed sub post offices to be able to display a coherent and consistently branded range on their shelves. The result was a more professional retail offering for their customers which has proved to be extremely successful.
